PROJECTS

- **NGO Website : Arya Bhumi Seva Sansthan**   01/2025 - 03/2025
  Github | Real-TIme
  - Arya Bhumi Seva Sansthan is a non-profit organization dedicated to healthcare, education, and social welfare.
    This web application serves as its digital platform for outreach and service delivery.
    Features include program highlights, multi-language support, and secure user authentication.
    Built with Next.js 13, TypeScript, Tailwind CSS, and Supabase; deployed on a self-hosted KVM VPS using CloudPanel and PM2.

- **Insight Notes : AI Powered Notes Taking Site**   03/2025 - 05/2025
  Github
  - A powerful note-taking application with AI integration and creative writing support.
    Includes academic note organization, dedicated creative writing tools, and customizable tag management.
    Features full-text search and an AI assistant to provide insights based on saved notes.
    Built using TypeScript, PLpgSQL, and Tailwind CSS with a focus on clean UI and fast performance.

- **Soni Jewellers – Premium E-Commerce Jewellery Website**   05/2025 – 07/2025
  Github | Real-Time
  - Developed a premium jewellery e-commerce platform with dynamic metal pricing, cart, wishlist, order tracking, and admin dashboard. Built using Next.js 14, Supabase, and Tailwind CSS, with real-time features and responsive design.
    Enabled partial payments, product filtering, and full admin control panel with analytics.

VOLUNTEER EXPERIENCE

- **Technology Awareness & AI Literacy Campaign**   05/2024 - 07/2024
  Volunteer Instructor | Self-initiated Project
  - I conducted interactive sessions aimed at teaching students the fundamentals of computer science, internet literacy, and the societal impact of artificial intelligence. The initiative focused on simplifying modern tech trends and demonstrating real-life applications of AI to make the subject accessible and engaging. Over the course of two months, I helped more than 200 students build a strong foundation in digital awareness and emerging technologies.
